## SUMMARY

---

Aspiring Full-Stack Web Developer and BSIT student with hands-on experience building responsive, user-focused web applications using React, PHP, and MySQL. Skilled in developing full-stack CRUD systems, user authentication, and clean, maintainable UI designs. Passionate about learning modern web technologies and building real-world applications.

## EDUCATION

---

### • Rizal Technological University

Bachelor of Science in Information Technology | **2022 – Present**

## SKILLS

---

- Frontend: Html, Css, JavaScript, React
- Backend: Php, Mysql
- Tools: Git, Github, Figma

## PROJECTS

---

### DreamBooking – Full-Stack Web Application

Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed an Airbnb-style booking platform allowing users to list, browse, and book apartments
- Implemented role-based access control for users and administrators
- Built admin moderation features to manage property listings
- Integrated map-based listings to enhance location-based searching
- Designed a structured database using MySQL and implemented CRUD operations using PHP (PDO)

### PomoZone – Productivity Web Application

Stack: HTML, CSS, JavaScript

- Built a productivity web app for a hackathon to help students manage tasks and focus
- Implemented a Pomodoro timer with multiple modes and automatic session switching
- Developed a CRUD to-do list system for task tracking and completion
- Created a GitHub-style activity heatmap to visualize productivity sessions
- Used LocalStorage to persist user tasks and session data

### Personal portfolio website

Stack: React, Vite, Tailwind CSS, JavaScript, Supabase

- Built and deployed a responsive personal portfolio to showcase projects, skills, and experience.
- Implemented reusable React components using useState and useEffect for state
- Integrated a like counter feature using Supabase for real-time data storage.
- Added a contact form using EmailJS to allow recruiters to send messages directly.
- Embedded a GitHub contribution calendar to highlight development activity.

## TECHNICAL EXPERIENCE

---

- Develop responsive web interfaces using React and modern CSS, convert UI designs from figma
- Build backend functionality using PHP and MySQL, including CRUD operations and authentication
- Use Git and GitHub for version control and project collaboration
